

Project HEALTH & SAFETY

Before recruiting volunteers please review the health and safety guidelines below.

Safety is our top priority during the uncertainty of COVID-19. We are monitoring CDC, Florida, and Indian River County government guidelines; however, visit their sites with the links provided for the most up-to-date information.

Please DO NOT volunteer in-person if you are currently sick, feeling unwell or have been near someone who is sick

SUGGESTED PRECAUTIONS:

- Provide sufficient and accessible infection control supplies (e.g. hand-hygiene products, tissues, Clorox wipes and receptacles for their disposal) in all locations.
- Please make clear any protocol specific to your organization and instruct volunteers upon arrival of any safety procedures.

BEST PRACTICES:

- Make sure all instructions are clear and that everyone has a task – your job is to manage the workload and people, not completing the task at hand unless you're working with a small group.
- Check-in with volunteers periodically to ensure they're feeling well, are following safety guidelines, and have the tools and guidance they need.
