

# ALICE IN ALACHUA COUNTY

## 2021 Point-in-Time Data

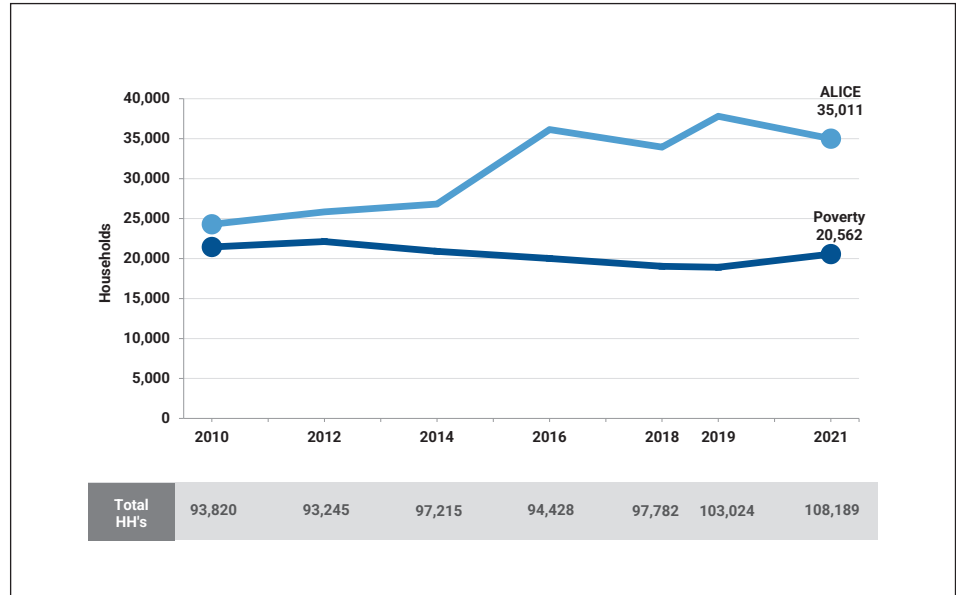

**Population:** 279,238 • **Number of Households:** 108,189 (5% change from 2019)  
**Median Household Income:** \$56,445 (state average: \$63,062)  
**Labor Force Participation Rate:** 60.3% (state average: 59.1%)  
**ALICE Households:** 32% (state average: 32%) • **Households in Poverty:** 19% (state average: 13%)

## Financial Hardship Changes Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 56,717 households in Alachua County were below the ALICE Threshold; in 2021 this number changed to 55,573, (a -2% change).

## Households by Income, Alachua County, 2010–2021

Note: See an interactive version of this data at [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida)

Sources: ALICE Threshold, 2010–2021; American Community Survey, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Alachua County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Alachua County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

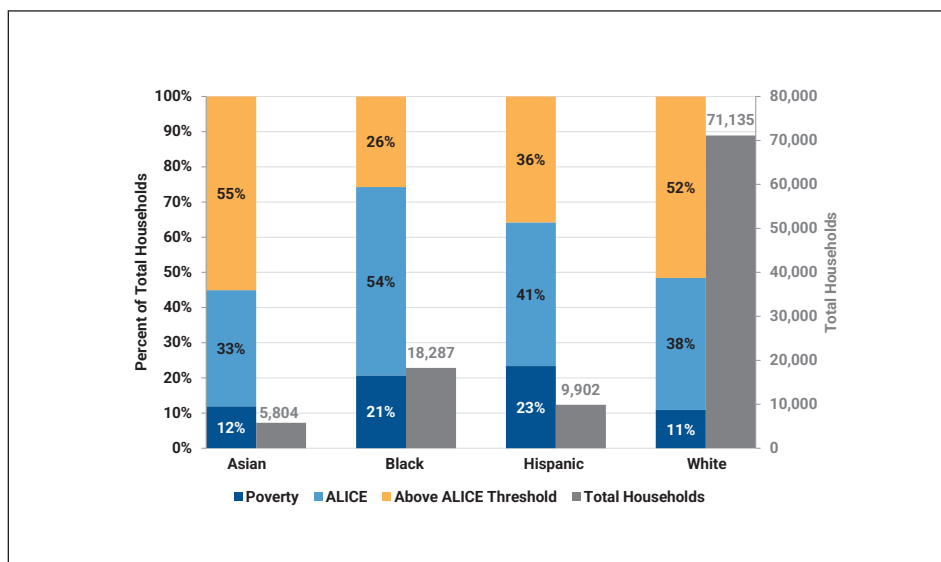

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

# ALICE IN CALHOUN COUNTY

## 2021 Point-in-Time Data

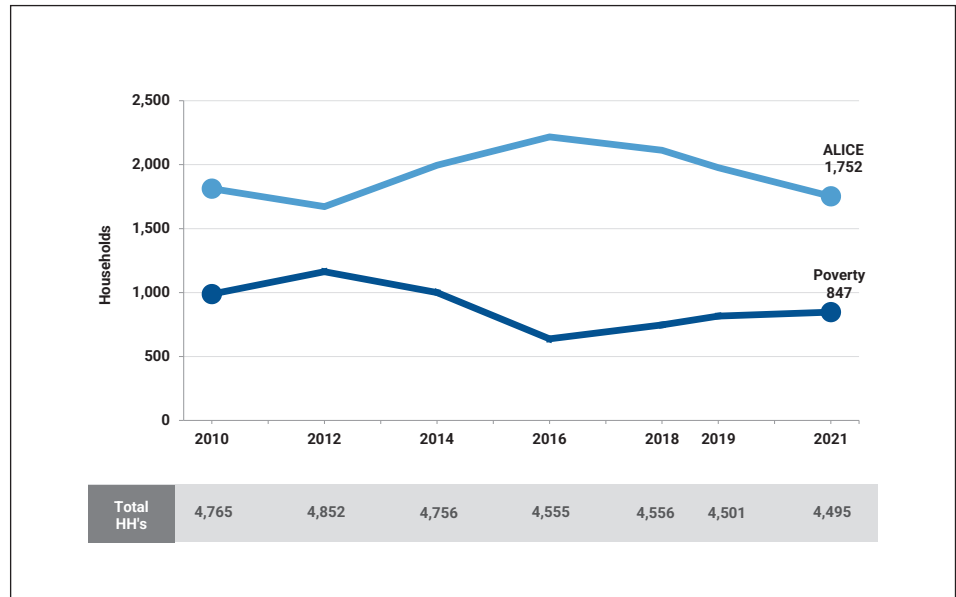

**Population:** 13,863 • **Number of Households:** 4,495 (0% change from 2019)  
**Median Household Income:** \$38,098 (state average: \$63,062)  
**Labor Force Participation Rate:** 42.1% (state average: 59.1%)  
**ALICE Households:** 39% (state average: 32%) • **Households in Poverty:** 19% (state average: 13%)

## Financial Hardship Changes Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 2,792 households in Calhoun County were below the ALICE Threshold; in 2021 this number changed to 2,599, (a -7% change).

## Households by Income, Calhoun County, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Calhoun County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

# Financial Hardship is Not Evenly Distributed

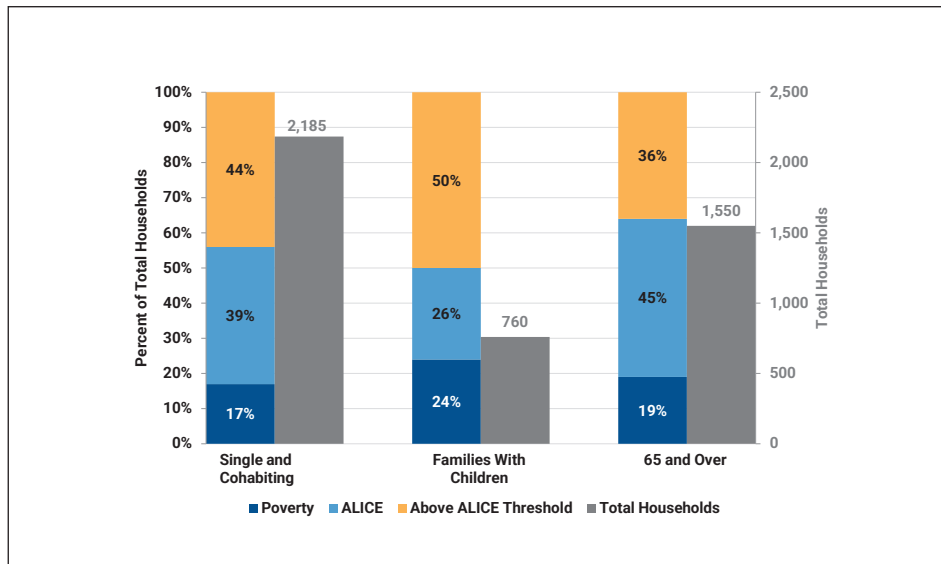

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 7,930 households in DeSoto County were below the ALICE Threshold; in 2021 this number changed to 7,983, (a 1% change).

## Households by Income, DeSoto County, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in DeSoto County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

# Financial Hardship is Not Evenly Distributed

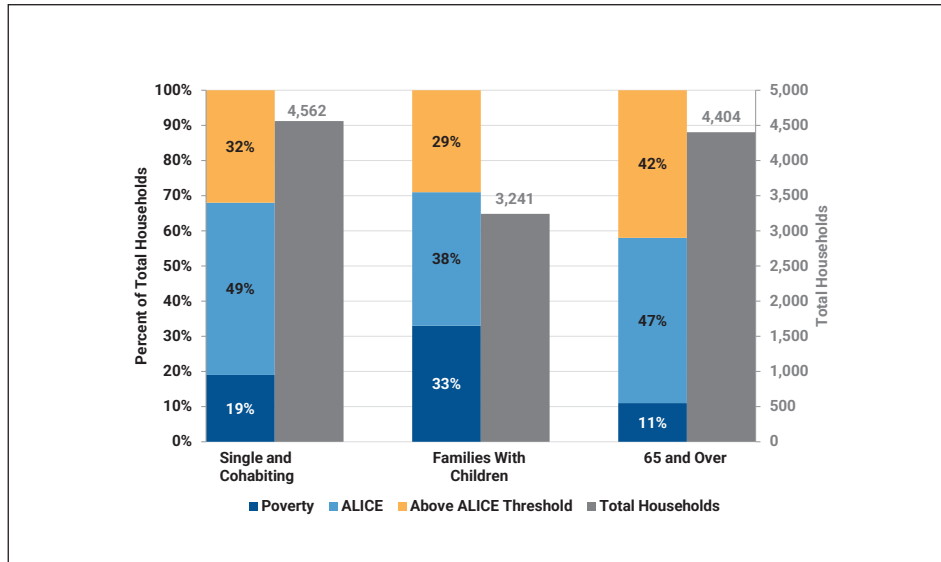

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

# Financial Hardship is Not Evenly Distributed

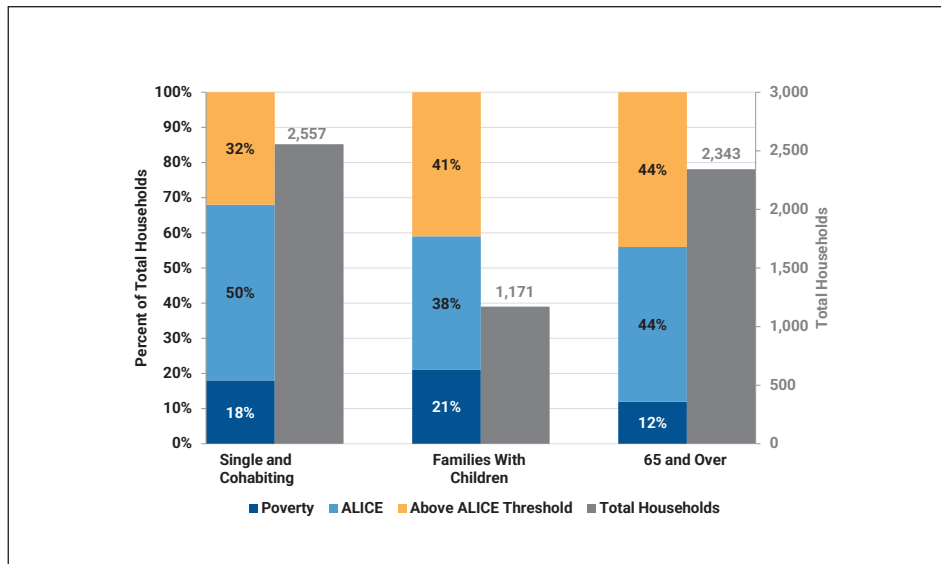

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

# ALICE IN GILCHRIST COUNTY

## 2021 Point-in-Time Data

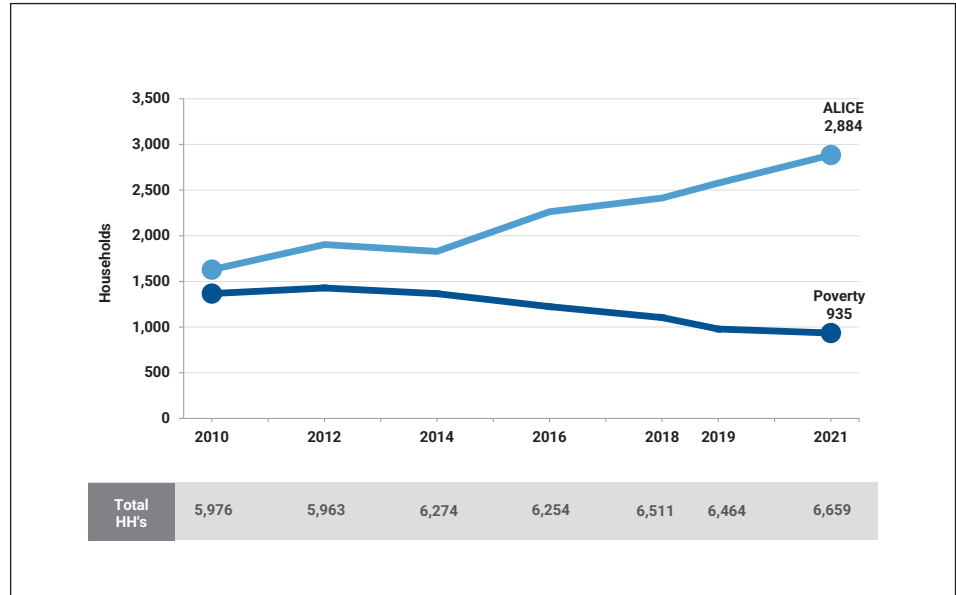

**Population:** 17,759 • **Number of Households:** 6,659 (3% change from 2019)  
**Median Household Income:** \$50,983 (state average: \$63,062)  
**Labor Force Participation Rate:** 50.2% (state average: 59.1%)  
**ALICE Households:** 43% (state average: 32%) • **Households in Poverty:** 14% (state average: 13%)

## Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 3,556 households in Gilchrist County were below the ALICE Threshold; in 2021 this number changed to 3,819, (a 7% change).

## Households by Income, Gilchrist County, 2010–2021

# Financial Hardship is Not Evenly Distributed

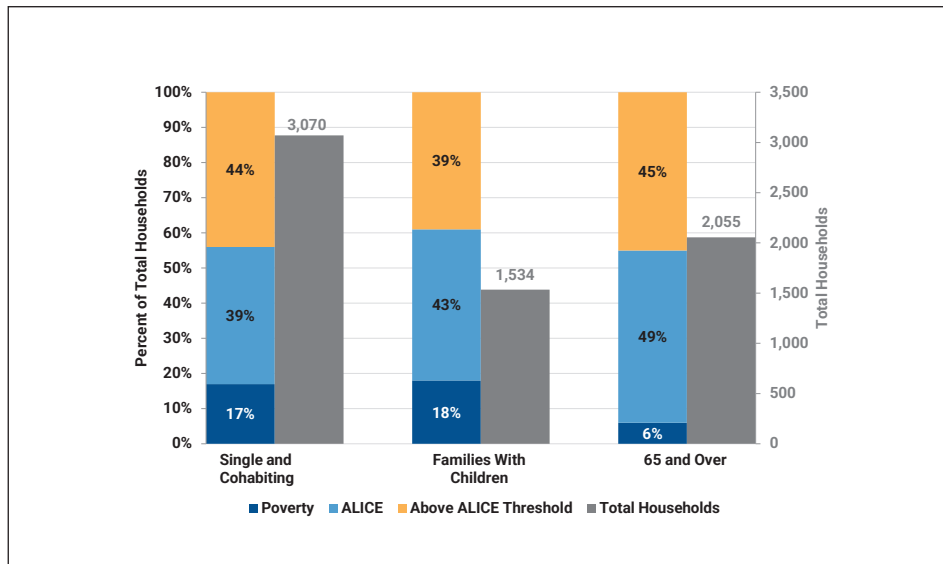

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

Hendry County, 2021		
Town	Total Households	% ALICE & Poverty

# ALICE IN HERNANDO COUNTY

## 2021 Point-in-Time Data

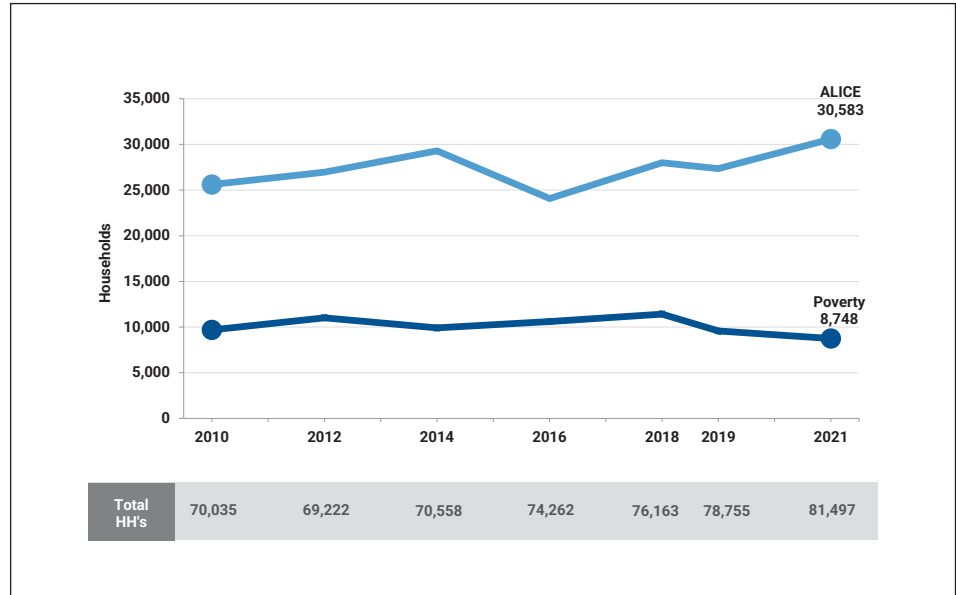

**Population:** 200,638 • **Number of Households:** 81,497 (3% change from 2019)  
**Median Household Income:** \$56,868 (state average: \$63,062)  
**Labor Force Participation Rate:** 51.7% (state average: 59.1%)  
**ALICE Households:** 38% (state average: 32%) • **Households in Poverty:** 11% (state average: 13%)

## Financial Hardship Changes Over Time

**ALICE** is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 36,935 households in Hernando County were below the ALICE Threshold; in 2021 this number changed to 39,331, (a 6% change).

## Households by Income, Hernando County, 2010–2021

Sources: ALICE Threshold, 2010–2021; American Community Survey, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Hernando County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

# ALICE IN JEFFERSON COUNTY

## 2021 Point-in-Time Data

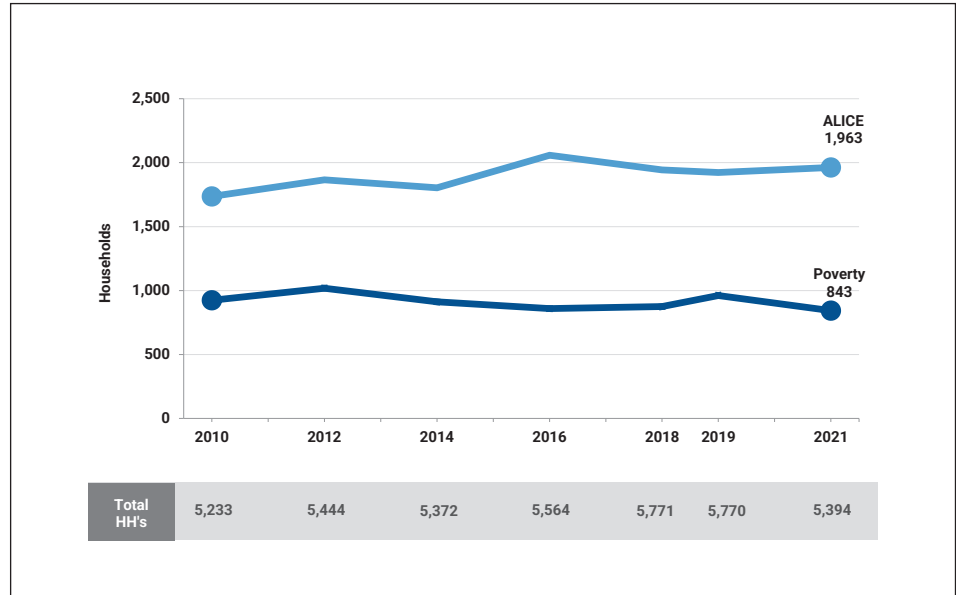

**Population:** 14,405 • **Number of Households:** 5,394 (-7% change from 2019)  
**Median Household Income:** \$53,080 (state average: \$63,062)  
**Labor Force Participation Rate:** 51.3% (state average: 59.1%)  
**ALICE Households:** 36% (state average: 32%) • **Households in Poverty:** 16% (state average: 13%)

## Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome Constrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 2,884 households in Jefferson County were below the ALICE Threshold; in 2021 this number changed to 2,806, (a -3% change).

## Households by Income, Jefferson County, 2010–2021

Note: See an interactive version of this data at [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida)  
 Sources: ALICE Threshold, 2010–2021; American Community Survey, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Jefferson County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

# Financial Hardship is Not Evenly Distributed

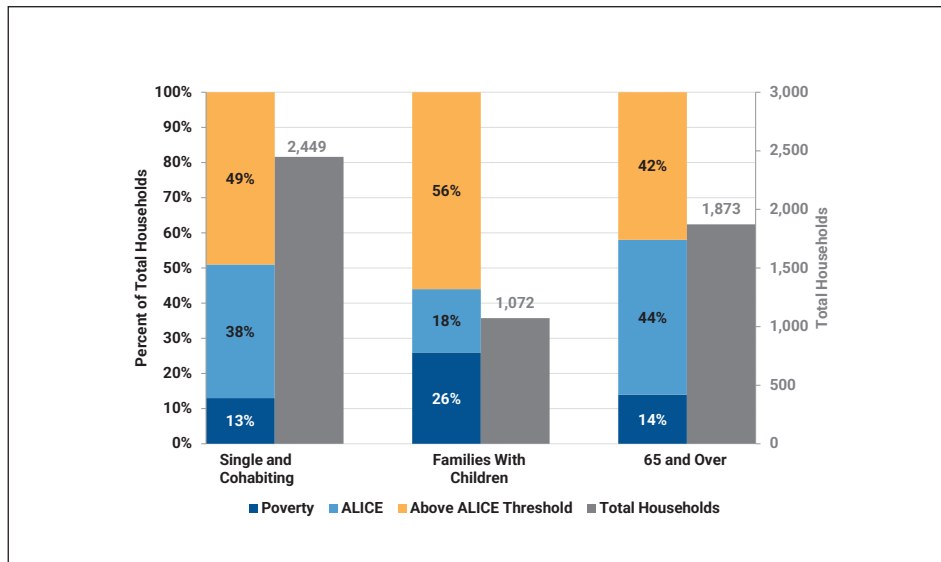

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

## 2021 Point-in-Time Data

**Population:** 7,987 • **Number of Households:** 2,279 (-7% change from 2019)  
**Median Household Income:** \$42,438 (state average: \$63,062)  
**Labor Force Participation Rate:** 40.9% (state average: 59.1%)  
**ALICE Households:** 44% (state average: 32%) • **Households in Poverty:** 20% (state average: 13%)

## Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome Constrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 1,705 households in Liberty County were below the ALICE Threshold; in 2021 this number changed to 1,459, (a -14% change).

## Households by Income, Liberty County, 2010–2021

Sources: ALICE Threshold, 2010–2021; American Community Survey, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Liberty County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

# ALICE IN MONROE COUNTY

## 2021 Point-in-Time Data

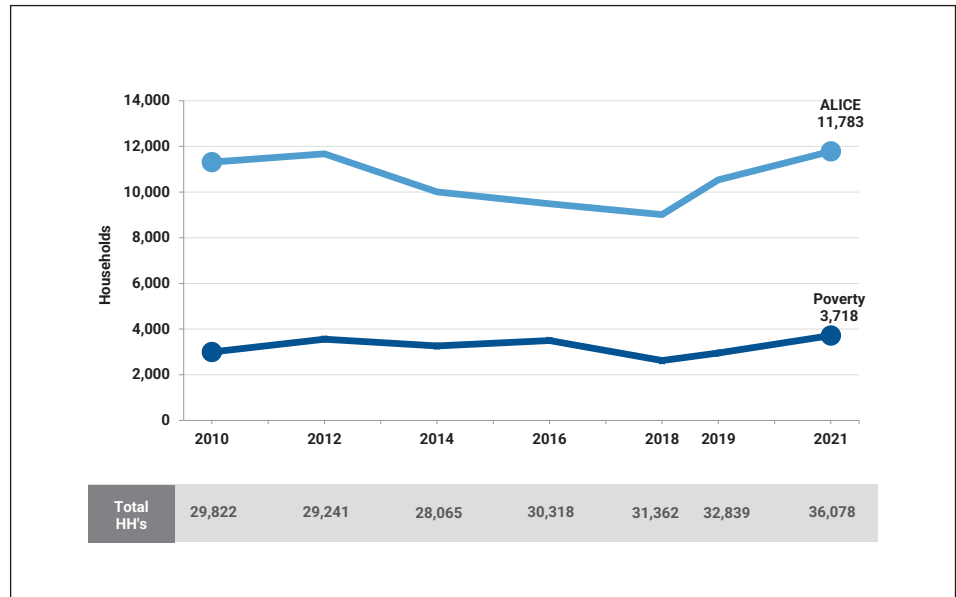

**Population:** 82,170 • **Number of Households:** 36,078 (10% change from 2019)  
**Median Household Income:** \$68,563 (state average: \$63,062)  
**Labor Force Participation Rate:** 63.4% (state average: 59.1%)  
**ALICE Households:** 33% (state average: 32%) • **Households in Poverty:** 10% (state average: 13%)

## Financial Hardship Changes Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 13,490 households in Monroe County were below the ALICE Threshold; in 2021 this number changed to 15,501, (a 15% change).

## Households by Income, Monroe County, 2010–2021

Note: See an interactive version of this data at [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida)  
 Sources: ALICE Threshold, 2010–2021; American Community Survey, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Monroe County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Monroe County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

# ALICE IN PALM BEACH COUNTY

## 2021 Point-in-Time Data

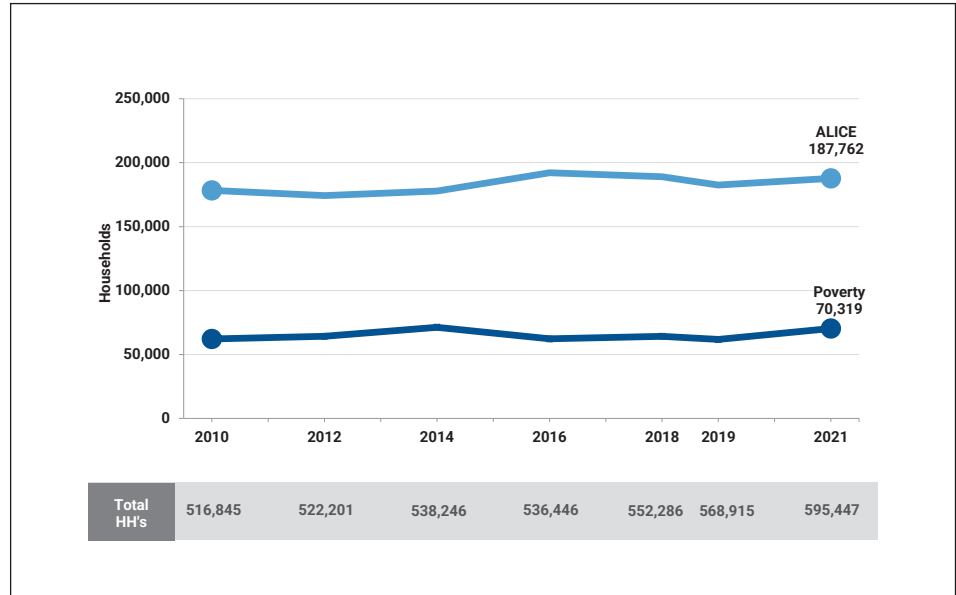

**Population:** 1,497,987 • **Number of Households:** 595,447 (5% change from 2019)  
**Median Household Income:** \$70,002 (state average: \$63,062)  
**Labor Force Participation Rate:** 59.4% (state average: 59.1%)  
**ALICE Households:** 32% (state average: 32%) • **Households in Poverty:** 12% (state average: 13%)

## Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 244,310 households in Palm Beach County were below the ALICE Threshold; in 2021 this number changed to 258,081, (a 6% change).

## Households by Income, Palm Beach County, 2010–2021

Note: See an interactive version of this data at [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida)

Sources: ALICE Threshold, 2010–2021; American Community Survey, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Palm Beach County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Palm Beach County, visit [UnitedForALICE.org/Household-Budgets/Florida](https://UnitedForALICE.org/Household-Budgets/Florida)

# Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

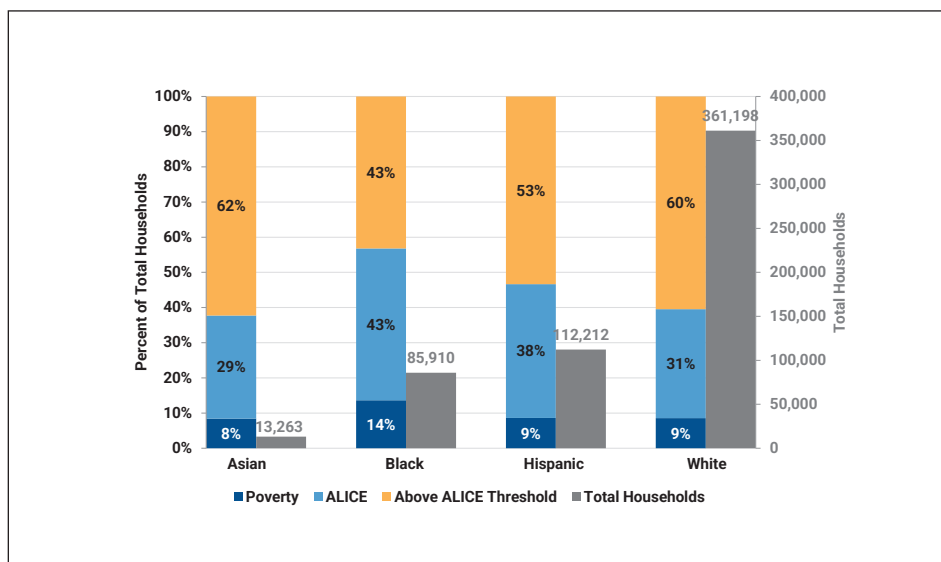

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

# ALICE IN ST. LUCIE COUNTY

## 2021 Point-in-Time Data

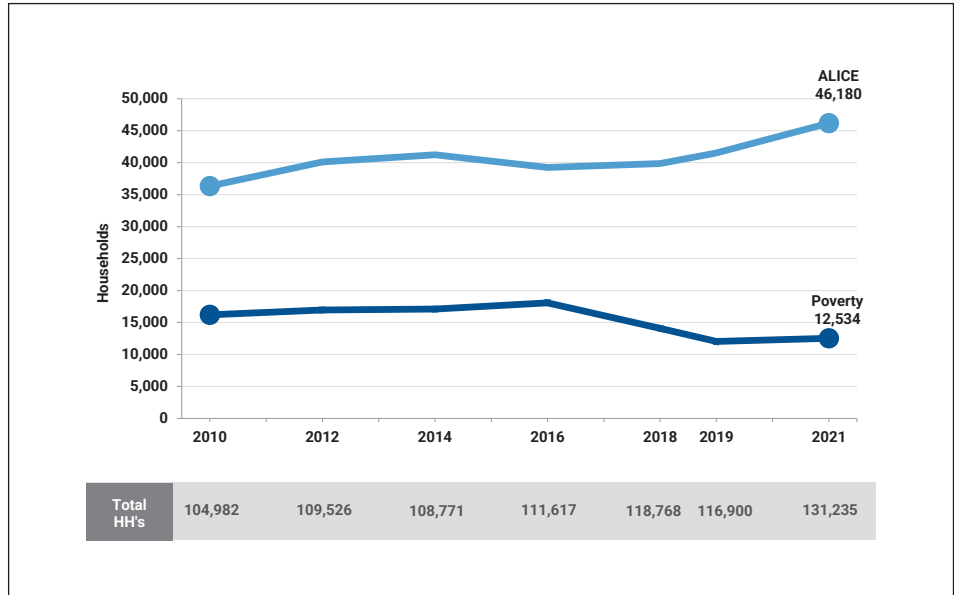

**Population:** 343,579 • **Number of Households:** 131,235 (12% change from 2019)  
**Median Household Income:** \$62,797 (state average: \$63,062)  
**Labor Force Participation Rate:** 56.1% (state average: 59.1%)  
**ALICE Households:** 35% (state average: 32%) • **Households in Poverty:** 10% (state average: 13%)

## Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 53,557 households in St. Lucie County were below the ALICE Threshold; in 2021 this number changed to 58,714, (a 10% change).

## Households by Income, St. Lucie County, 2010–2021

Note: See an interactive version of this data at [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida)  
 Sources: ALICE Threshold, 2010–2021; American Community Survey, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in St. Lucie County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

## 2021 Point-in-Time Data

**Population:** 21,762 • **Number of Households:** 7,270 (-2% change from 2019)  
**Median Household Income:** \$43,563 (state average: \$63,062)  
**Labor Force Participation Rate:** 39.5% (state average: 59.1%)  
**ALICE Households:** 37% (state average: 32%) • **Households in Poverty:** 15% (state average: 13%)

## Financial Hardship Changes Over Time

**ALICE** is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 4,723 households in Taylor County were below the ALICE Threshold; in 2021 this number changed to 3,769, (a -20% change).

## Households by Income, Taylor County, 2010–2021

Sources: ALICE Threshold, 2010–2021; American Community Survey, 2010–2021

## The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Taylor County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

# Financial Hardship is Not Evenly Distributed

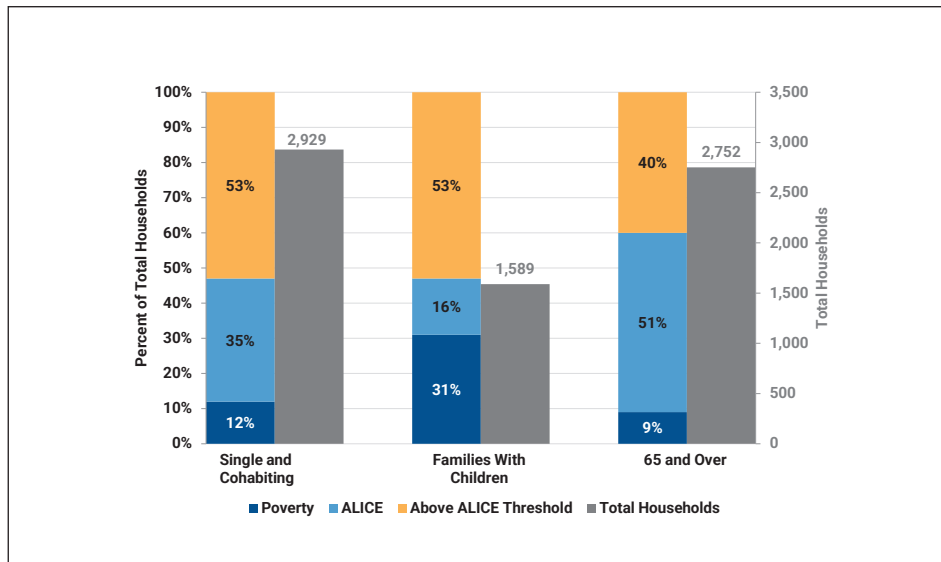

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit [UnitedForALICE.org/Florida](https://UnitedForALICE.org/Florida) to view more national, state, and county data.

Note: Municipal-level data on this page is 5-year averages for Census County Subdivisions. Totals will not match county-level numbers because data is not available for the smallest County Subdivisions, and county-level data is often 1-year estimates.
